EDUCATION

B.Tech in CSE (Specialization in AI & ML), ABES ENGINEERING COLLEGE (AKTU) 2023 – 2027
Current GPA : 8.33

Class 12th (CBSE), DEHRADUN PUBLIC SCHOOL 2023
Percentage – 92.8%

Class 10th (CBSE), DEHRADUN PUBLIC SCHOOL 2021
Percentage – 94.8%

SKILLS

Languages : C, C++, Python, HTML, CSS, JavaScript
Frameworks : React.js, Node.js, Bootstrap / Tailwind CSS
Tools : Git, GitHub, VS Code, RESTApi, MongoDB
Soft-Skills : Time Management, Teamwork, Adaptibility, Emotional Intelligence

EXPERIENCE

Project Lead | SentinelNet – AI-Powered Network Intrusion Detection System Sep 2025 - Nov 2025
Infosys Springboard Virtual Internship 6.0 (AI Domain)

- Engineered an end-to-end AI-driven Network Intrusion Detection System using Python and machine learning techniques to analyze network traffic and detect malicious activities in real time.
- Engineered an end-to-end AI-driven Network Intrusion Detection System using Python and machine learning techniques to analyze network traffic and detect malicious activities in real time.
- Spearheaded the creation of an interactive Streamlit UI dashboard, enhancing usability and interpretability of security insights.

PROJECTS

SentinelNet – [Python, ML, Streamlit, Scikit-learn, Pandas, NumPy, Plotly] Sep 2025 - Nov 2025

- Implemented ML-based intrusion detection capable of classifying normal and malicious traffic with high accuracy, supported by real-time visualization and alerting.
- Built a production-ready dashboard integrating EDA, model evaluation, and anomaly detection in a single interface.

Durlassa – Women's Safety WebApp – [MERN Stack, Maps API] Feb 2025 - March 2025

- Designed and developed a women's safety application featuring **SOS alerts**, **real-time GPS tracking**, and **safe route recommendations** to enable quick emergency response.
- Implemented safest route tracking by analyzing crime data, visually marking high-risk zones in red (50+ crimes), moderate-risk areas in yellow (20–50 crimes), and safe zones in green (below 20 crimes) to ensure informed and secure navigation.

ACHIEVEMENTS AND CERTIFICATIONS

- Secured **3rd Position** in **Full Stack Development Webathon** in collaboration with **ScholarHat** by **Dot Net Tricks Innovation Private Limited**
- Successfully completed **Infosys Springboard 6.0 Virtual Internship** in **Artificial Intelligence & Machine Learning.** **(CERTIFICATE)**
- Forage - Deloitte Australia Data Analytics Course Completion **(CERTIFICATE)**
- TCS iON Career Edge – Young Professional **(CERTIFICATE)**
- AWS – AWS Getting Started With Storage **(CERTIFICATE)**
